

HAMA

BEACH CONDO

INTERIOR DESIGN BROCHURE

On the seashore.

A vertical image on the left side of the page showing a close-up of water ripples. The water is a mix of light blue and white, with dark blue shadows in the troughs of the ripples. The overall effect is a sense of movement and texture.

CONCEPT

In HAMA the peace and harmony of the Japanese style merges with the warmth of Mexican nature. This translates into functional elements designed with clean lines, rustic wood textures and natural colors.

The design is timeless, bright and warm. The materials are obtained from nature: wood, stones, natural fibers. The decoration style wants to generate harmonious, relaxed and cozy spaces, with the use of fabrics such as linen and cotton, ceramics, and carefully chosen pieces all made of natural materials with the aim of transmitting calm and serenity.

HAMA's style is summed up in functional simplicity, warm minimalism, nature in its purest form. In order to feel at ease, in connection with nature.
